

# OFFERS & ONBOARDING

**SUCCESSFULLY ONBOARD  
YOUR NEW HIRES**

**STREAMLINE THE JOURNEY FROM  
OFFER TO ONBOARDING  
A SUCCESSFUL CANDIDATE**

Onboarding doesn't start the day your new recruit first comes in to work. Eploy helps keep your new hires 'warm' before they start and ensures they're ready for their first day.

## Configurable Onboarding Processes

With Eploy's groundbreaking Flows technology, you're free to create, adapt and improve your onboarding processes through an intuitive visual process flow builder. Create different process flows for specific vacancies and candidate types - such as internal, external and returning hires.

## Streamline your reference collection

Ensuring recruiters request and collect appropriate new hire references can be time-consuming. With Eploy Onboarding, it couldn't be simpler. First, candidates can enter reference details through the Candidate Portal; next, Eploy automatically emails referees and alerts candidates if referees fail to respond.

## New starter information collection

Whatever info you need to bring a new hire on board - bank details, medical history and more - Eploy Onboarding is entirely customisable to request and collect vital candidate information, ensuring compliance and improving recruiter efficiency.

## Offer acceptance & e-Signatures

Eploy Onboarding manages your entire offer acceptance process online. You can ensure NDA's are signed, Employee Handbooks read, whatever you need to audit - Eploy manages it. And with electronic signatures, you can speed up your process, so there's no more paper-chasing!

### Reduce No-shows

Keep new hires warm before their first day

### Ensure Compliance

Collect new hire info online via your careers portal

### Auto References

Electronic reference requests and collection

### Online Offers

Manage your offer documentation online including e-signing

### E-signatures
